SUMMARY

Final-year D3 Informatics Engineering student at the University of Logistics and International Business with experience as a passionate Full-Stack Developer in building and deploying web and mobile applications. Proficient in both back-end and front-end development, with a strong focus on back-end technologies such as Laravel, Express.js, and Node.js. Leveraging a background as an Assistant Producer intern at I Channel TV to complement technical expertise with strong communication skills. Able to work across the full development stack while continuously learning and adapting to new technologies and best practices in software development.

WORK EXPERIENCE

I Channel TV Bandung | Bandung, Indonesia

April 2022 – June 2022

Assistant Producer (Intern)

- Managed daily television production workflows alongside the Senior Producer, focusing on structured scheduling and strict adherence to broadcasting quality standards.
- Coordinated cross-functional communication between the creative, technical, and talent teams, ensuring the seamless execution of project timelines.
- Facilitated strategic communication to effectively bridge technical concepts with diverse stakeholders, developing strong project management and collaborative skills.

PROJECTS

Focus Talk – Android-Based Smart Intervention & Micro-Learning

Nov 2025 – Feb 2026

Android Developer

https://github.com/rdwnsyh/focustalk_app.git

- Developed the Android application using Flutter and SQLite, focusing on mitigating digital procrastination through real-time smart intervention.
- Designed deterministic decision-making logic using Heuristic Rule-Based algorithms to accurately monitor smartphone activity and categorize app usage.
- Built a robust Background Service that triggers System Alert Window overlays, creating cognitive friction by requiring users to complete English micro-learning quizzes.
- Optimized intervention timing and precise application filtering to ensure educational sessions occur effectively without interrupting the user's productive tasks.

MediTech – Integrated Digital Health Management System

Jun 2025 – Aug 2025

Fullstack Developer

<https://github.com/hilalmuhamad/app-klinik-kita.git>

- Developed the back-end architecture using Node.js and Express.js (Mongo DB), focusing on secure medical data management and real-time telemedicine capabilities.
- Built a multi-platform ecosystem featuring a React.js web dashboard for hospital administration and a Flutter mobile application for seamless patient access.
- Implemented real-time chat consultations using Socket.IO and designed a flexible NoSQL database schema with MongoDB to efficiently manage patient records.
- Secured sensitive healthcare information by integrating JSON Web Tokens (JWT) for authentication and Role-Based Access Control (RBAC).

Jan 2026

<https://github.com/bpmthm/maggot-cycle>

- Nov 2024 – Feb 2025

<https://github.com/hilalmuhamad/TiketApp.git>

- ## EDUCATION

TRAININGS AND CERTIFICATIONS

ORGANIZATIONAL EXPERIENCE

Aug 2025

- Directed a committee of 20+ members to organize a strategic industrial visit, serving as the primary liaison between the university and corporate representatives.
- Managed the event timeline, logistics, and correspondence, ensuring a seamless experience for 70+ student participants.
- Managed strategic communication and scheduling between the university and corporate stakeholders to facilitate a comprehensive industrial learning experience.

HIMATIF (Informatics Engineering Student Association)

March 2025 - Present

Staff Public Relations

- Initiated and managed the "Safari Himpunan" (Comparative Study programs) with external university student associations
- Acted as the primary liaison between the student association and corporate sponsors, actively managing professional communications and negotiating strategic partnerships to support student-led events.
- Facilitated external collaborations and bridged communication between internal departments and external partners to ensure mutual alignment and successful project execution.

K-Radio ULBI

March 2025 - Present

Head of Media Design Division

- Led a creative team in producing high-quality digital content, resulting in a consistent visual identity across all social media platforms.
- Oversaw the design workflow for campus event promotions, increasing audience engagement through visually compelling graphics.

BEM KEMA ULBI

Feb 2025

Junior Staff

- Contributed to the planning and execution of university-scale cultural events, fostering creative initiatives within the student body.

Languages & Skills

- **Infrastructure & Systems:**
Linux Server Administration | Nginx | PostgreSQL Replication | Firewall | IDS/IPS | VPN | WAF
- **Containerization & Deployment:**
Podman
- **Networking & Security:**
TCP/IP | Load Balancing | System Hardening
- **Databases:**
PostgreSQL | MySQL | MongoDB | SQL Lite
- **Programming:**
JavaScript | PHP | Python | SQL
- **Tools:**
Git | Postman | VS Code
- **Soft Skills:**
Agile Project Management, Strategic Communication, Cross-Functional Leadership.
- **Languages:**
Indonesian, English.
